What is Computer Science?

• Computer science is no more about computers than astronomy is about telescopes. - Edsger Dijkstra

• Computer science is not as old as physics; it lags by a couple hundred years. However this does not mean that there is significantly less on the computer scientist’s plate than on the physicist’s: younger it may be, but it has had a far more intense upbringing! - Richard Feynman
Computer Science is a young discipline

• First computer science department formed in 1962

Samuel D. Conte
Professor emeritus of computer science and mathematics was the founding department head of the nation's first computer science program. October 1962.
What is Computer Science?

- Artificial Intelligence

Mars Rover

Roomba

CMU’s Sandstorm
What is Computer Science?

• Animation
What is Computer Science?

• The Organization of Data, and Searching

Did you mean: computer science
What is Computer Science?

• Medicine, Genomics
What is Computer Science?

- Devices
Computer Science and Programming

• Computer Science is more than programming
  – Called *Informatics* in many countries
  – Elements of both science and engineering
  – Elements of math, physics, cognitive science, music, art, and many other fields

• To some programming is an art, to others a science, to others an engineering discipline.
What Will We Do in CompSci 4?

• Web pages/html (one week)
• Learn to program with Alice 2
• Tester for Alice 3 Beta (2 weeks)

• Logistics
  – Bring laptop or use class laptops
  – Textbook
How CompSci 4 Will Work

• In Class
  – Lecture/demos
  – Tutorials
  – Classwork (in assigned pairs)
  – REQUIRED ATTENDANCE

• Outside of class
  – Complete work not finished in class
  – Reading
  – Assignments
What Is Alice?

• A modern programming tool
  – 3-D graphics
  – 3-D models of objects

• Animation
  – Objects can be made to move around virtual world (a simulation or video game)
What does Alice run on?

- Alice is written in Java – should run on many systems
  - supports Mac and PC
- Which version of Alice are we using?
  - Alice 2.2 Beta,
  - don’t use the version in the book or on the alice web page, see the CompSci 4 resources page
  - May also use Alice 3.0 Beta a little at the end
Fast Start Up

• Can quickly learn to create
  – A simple animation in a few minutes
  – A non-trivial animation in a few class periods
• Can learn to use the Alice interface after a few more class periods
The Power of Alice

• Automatically keeps track of 3-D objects
  – What objects are in the virtual world
  – Types of objects
  – Positions of objects in the world
Objects Have Multiple Parts that are moveable

- Objects already exist in libraries
Program an Object

World.my first method

No parameters

No variables:

- **Chicken.Neck.Head** turn right 0.25 revolutions more...
- **Chicken** move up 0.5 meters more...
- **Chicken.Neck.Head** turn left 0.25 revolutions more...
- **Chicken** roll right 2 revolutions more...

Do together:

- **Chicken** say CompSci 4 is going to be fun! duration = 4 seconds more...
- **Chicken** move down 0.5 meters more...
- **Chicken** move forward 10 meters style = abruptly more...
For Thursday!

- Finish classwork from today
- Download Alice 2.2 from www.alice.org
- Assignment 1
- Read Chapter 1 in Alice book
- Take Reading Quiz on Blackboard for Chap 1

- Plan
  - Try Alice on Thursday
  - More HTML next Tuesday
  - Then Alice mostly after that
Download Alice 2.2 from alice.org

Download Mirror: Alice 2.2 on Kenai.com

Note: if you have problems with the downloads below, please try downloading from Kenai.com.

Last updated 06/15/2010

Download Alice 2.2 for Windows (281 MB)

Download Alice 2.2 for Mac (295 MB)
Class Today

- Demo of Alice
  - Simple world
  - Projects from last semester
- Go over syllabus, web page
- A simple html web page
