Materials required:

1 die per pair
1 plastic container big enough to hold the prizes
1 small prize per person (e.g., bouncy balls)
1 copy of each of 6 maps per pair (3 with marked geocache, 3 without)
At least 1 GPS. Have the coordinates pre-entered in the GPS.
1 copy of Simulated Geocaching per pair, cut in half (geocacher and GPS)

Prep:

Place the prizes in the container and hide it outside in the vicinity of the classroom. Use a GPS to determine the coordinates of the location and add them to the classwork page, along with an encrypted clue about the hiding spot.
