

Stuck With A Program To Do
Parody of: Bob Dylan - Stuck In The Middle With You

Well I don't know why I programmed tonight.
I've got the feeling that something ain't right.
I'm so scared cause my program won't compile,
and I've been programming here for a while.

Warnings to the left of me!
Deadlines to the right!
Here I am stuck with a program to do.

Yes I'm stuck with a program to do,
and I'm trying to make it run like new.
It's so hard to program with little time.
And I am nearing my dreaded deadline.

Warnings to the left of me!
Deadlines to the right!
Here I am stuck with a program to do.

Well you started off with nothing
and you're proud that you wrote a public
class
and errors keep on piling up,
but you fix them, it runs and says
Runtime Exception . . .
Null Pointer Exception . . .

Trying to handle all the exceptions
but it won't run, its just a deception.
Is it cool to throw exceptions away
I don't think I can handle them anyway.

Warnings to the left of me!
Deadlines to the right!
Here I am stuck with a program to do.

Stuck with a program to do
Stuck with a program

Warnings to the left of me!
Deadlines to the right!
Warnings to the left of me!
Deadlines to the right! (Stuck with a program to do)
Warnings to the left of me!

Deadlines to the right! (Stuck with a program to do)
Warnings to the left of me!
Deadlines to the right! (ja-vah)
Warnings to the left of me!
Deadlines to the right!
Here I am stuck with a program to do

Well you started off with nothing
and you're proud that you wrote a class
public
and errors keep on piling up,
but you fix them, it runs and says
Runtime Exception . . .
Null Pointer Exception . . .

Well I don't know why I programmed tonight.
I've got the feeling that something ain't right.
I'm so scared for my program won't compile,
and I've been programming here for a while.

Warnings to the left of me!
Deadlines to the right!
Here I am stuck with a program to do.
Stuck with a program to do (ja-vah)
Stuck with a program to do
Here I am!
Stuck with a program to do
To do, to do, to do
