

Who's Who in COMPSCI 110

The purpose of this sheet is to allow me to get to know you and to develop a profile for the class. Please fill it out and return it at the end of class. Thank you!

Name: _____

Email address: _____

College and major: _____ Year: _____

Background and Expertise

How would you rate your expertise with the following programming languages or technologies?

Technology	Expert	Very Competent	Weakly Competent	Barely familiar	None
C					
C++					
JAVA					
make					
threads					

How would you rate your confidence as a programmer? (circle one)

Cocky *Confident* *Insecure* *Lacking*

How would you rate your knowledge of the following Operating Systems?

OS	Know kernel internals	System Calls and basic functions	Expert User	Novice User	None
Solaris					
Linux					
Windows NT					
Any embedded real-time OS (specify)					
Other flavors of UNIX (specify)					

Team Building:

How would you rate your previous experiences with group projects?	Strongly agree	Agree	Somewhat disagree	Strongly disagree
Everyone learned and mutually benefited				
Group members contributed fairly				
Group dynamics and cooperation were good				

Preferred team members:

Prefer NOT to work with the following classmates (names will be kept confidential):

Interests.

What do you feel is your preferred point on the computer science theory to practice continuum? (circle one)

Pure theory *Conceptual* *Practical* *Nuts & Bolts*

Based *only* on the *topics* covered in CPS104 (or its equivalent Computer Organization course), how would you characterize your interest level? (circle one)

Loved the material *Very interested* *Recognized its importance but not engaged* *Seemed irrelevant*

Plans for life after Duke (circle one):

Grad school in COMPSC *Grad school in other field (What?)* *Startup*

Job in computer industry *Career outside COMPSCI (What? Describe below)*

I would appreciate any information you'd like to provide on your interests (academic and otherwise):
