RCJ Individual Survey, Fall 2009

1a. What did your mentor do that you liked?

1.b What did your mentor do that you didn’t like?

1.c Overall, how would you describe your experience with your mentor?

2. Out of all of the activities we’ve done this semester, which did you like the most and why? Which did you like the least and why? (Reminder of activities: bumper cars, single sensor line following, two sensor line following, color recognition, exhibition activities)

3. Durham Public School students have many opportunities to participate in science and math enrichment activities. These often take place in after school settings, but can also happen during the summer, and even in school. Think about other math and science programs you have been a part of in the past. How does RoboCup Junior compare to those programs?
