Inquiry of the Week Assignment

Name: _____________________________  IOWA Due: ___/___/___
Period: _________ Haselbauer

Computer Programming is a major part of today’s society, not only in the work world, but in gaming, the internet and many other areas. In the work world, programmers design software to help people get things done or to make life easier. Name four programs that make your life easier?

Go to Bungie.net. Bungie is the company that made “Halo”. On the top menu bar, click on “Inside Bungie” and choose “meet the team”. Pick four people and tell me what they do:

1. Name: ______  Nickname: ______  Classification: ______  Current Job: _________________
2. Name: ______  Nickname: ______  Classification: ______  Current Job: _________________
3. Name: ______  Nickname: ______  Classification: ______  Current Job: _________________

Go back to the “Inside Bungie” menu and click on “Job Openings” Look at the jobs that Bungie has right now and pick one.
Which job did you pick? ________________________________
Why did you pick that job? ______________________________
What are some of the desired qualifications to get that job? ________________________________

Do you think it’d be fun to work for a video game development company?
Why? ________________________________
