Germany Lesson Plan-Berlin Wall
By: Kyle Mendenhall

Objective: To improve overall knowledge of European History in the 1900s.

As students learn about the Berlin Wall, have them watch an Alice World where there are two cities and a wall between the two cities to show the Berlin Wall, East Berlin and West Berlin. They will add to the Alice World to show what they learn throughout the unit study.

This can be incorporated into your technology part of your lesson plan when covering this topic in social studies.
