Introduction to Hitler and WWII
By: Kyle Mendenhall

Objective: To increase knowledge of European History during the 1900s.

Students will create an Alice World using a Hitler figure and also a Nazi flag to show this time in history. Also, the world will rotate to show a brief introduction to concentration camps. As the unit continues, have the students add to the Alice World to show other concepts they have learned about this time in history.

This can be incorporated into your technology part of your lesson plan when covering this topic in social studies.
