IPAD Lesson Plan

By: Kyle Mendenhall

Objective: To improve appropriate IPAD usage using an Alice World.

This Alice World is designed to teach all students the importance of using school IPADS. It teaches how to use an IPAD appropriately. Also, it tells how Tech Staff can view student usage and how you can lose your computer privileges at school. The importance of realizing even though you delete your searches they are never fully deleted and are always in cyber-space.

Exercises

1. Make a new Alice World showing internet safety.
2. Add a quiz to this Alice World asking three questions.
3. Add one event, one object and one method to this Alice World.
