● Subject: Business (9-12th)
● Topics: Business letter
● Title: Quiz on business letter

● Descriptions: This program is designed to test student understanding of various details involved in composing a business letter, such as the location of a header and lines of spaces before a signature. The highly interactive and varied Q&A structure, which includes true/false boolean questions as well as string and number questions, enables students to input answers and get feedback instantly. There are a number of characters on the scene, which attracts student attention and willingness for participation.
