**Exercise: Summer Getaways** (Games Sept 2004)
Joanna had three weeks of vacation this year. She took one week in each of three months: July, August, Sept and visited three friends, Wendy, Arnold and Tori. Each of these friends lives in a different kind of geographic area. Use the following clues to determine the month during which Joanna visited each friend and where he or she lives.

1. In July, Joanna visited the person who lives at the seashore.
2. She visited Tori in the mountains, but not in Sept.
3. Arnold doesn’t live in the forest
