This is an extra credit homework assignment. The rules here are that you can do a total of five problems. Three of the problems can be chosen from the bottom list. The other two problems must be 34.5-7 and 35-1. These two problems will be worth twice as much as those on the bottom list. So, the numbered problems are required, but you can choose three from the bulleted list below. This assignment will be worth approximately 1/3 of a normal assignment.

This list is intended to give you an idea of what will be covered on the final, so the problems are drawn from all over the textbook. The list is not, however, comprehensive; just because a topic is not on here does not mean it won’t be covered on the final!

1. CLRS Problem 34.5-7
2. CLRS Problem 35-1.

Miscellany: You can do up to three of these for credit.

- CLRS Problem 4-4
- CLRS Problem 6.5-6
- CLRS Problem 8.2-4
- CLRS Problem 9.3-3
- CLRS Problem 11.2-3
- CLRS Problem 12.2-4
- CLRS Problem 15.4-5
- CLRS Problem 16.2-7
- CLRS Problem 22.1-6
- CLRS Problem 22.4-3
- CLRS Problem 24.3-8
