Before Class:

- Journal Up

1. Multiple Patterns
   - Movie Censor
   - How can you check for a whole bunch of patterns at once?
   - Tries/Keyword Trees
   - Use it as a finite automaton
   - Will that work like that?
   - Add “Failure functions"

2. Wildcards
   - What is a wildcard?
   - Can you do this searching with Keyword Trees?
   - Other options?

3. Longest Common Substrings
   - See Notes

Next Class:

- What can and can’t be done?
- Evaluations!
- Real Evaluations
