REQUESTS FOR COMPUTER SCIENCE INDEPENDENT STUDY
Trinity College of Arts & Sciences

**This form is to request a DUS-Approved IS with either Computer Science Primary or Secondary Faculty (https://www.cs.duke.edu/people/faculty)**

Independent study enables a student to pursue for course credit individual interests under the supervision of a faculty member. There are two types of Independent Studies: Non-research and Research.

Courses entitled Independent Study are individual non-research directed study in a field of special interest on a previously approved topic taken under the supervision of a faculty member and resulting in an academic and/or artistic product. Such independent study courses do not bear a Research (R) code and do not satisfy any general education requirements.

Courses entitled Research Independent Study are individual research in a field of special interest under the supervision of a faculty member, the central goal of which is a substantive paper or written report containing significant analysis and interpretation of a previously approved topic. Such research independent study courses bear a Research (R) code and satisfy general education Research requirements. One research independent study may be submitted and approved for a Writing (W) code in addition to the R code designation. No other curriculum code designations are permitted for research independent study courses. Students who wish to request a W code for one research independent study course must take the appropriate form to 02 Allen Building by the end of the semester they are enrolled in the course. The request form is available at http://trinity.duke.edu/academic-requirements?p=independent-study-research-w-coding.

Policies:
The following policies apply to both types of independent study:

1. **Approval** — The independent study must be approved by the instructor(s) involved as well as by the Director of Undergraduate Studies in the relevant department or program.
2. **Faculty appointment** — The instructor of record (supervising faculty member) must hold a regular rank faculty appointment at Duke within the department or program sponsoring the independent study. In some cases, there may be an additional instructor who mentors the bulk of the independent study and holds an appointment outside the sponsoring department or program. If this is the case, the supervising faculty member is responsible for submitting the final grade, and ensuring that the instructor adheres to academic standards, policies, and procedures pertaining to undergraduate students in Trinity College of Arts & Sciences.
3. **Course Content / Quality** — The independent study must provide a rigorous academic experience equivalent to that of any other undergraduate Duke course. Independent study courses may not duplicate available course offerings in the semester or summer term in which the independent study occurs, nor may the independent study be used simply to provide low-level support for other projects or to observe or shadow the work of others.
4. **Meeting schedule** — For CS IS we require weekly meetings with the person supervising you and must be in writing on the proposal. In addition to the individual effort of the student, which normally entails ~10 hours per week.
5. **Final product** — The student will produce a final academic and/or artistic product to be completed during the semester for which the student is registered for the course.
6. **Grading** — The instructor will evaluate the work, including the final product, associated with the independent study, and submit a grade by the end of the semester. If the instructor is someone other than the supervising faculty member, the instructor will consult on the final grade with the supervising faculty member from the sponsoring department or program, who will submit the final grade.

Procedures:

1. Make arrangements with a faculty member having expertise in the desired area.
2. The student and instructor must agree on the course title, plan of study, objectives and expectations, as well as on the nature of the final product and evaluation criteria.
3. The student submits the Independent Study Permission Form (attached here) to the Director of Undergraduate Studies for final approval before the end of the drop/add period of the term in which the independent study is to be taken.
4. If approved, the student will receive a permission number to register for the course.

For policies and procedures related to independent study in Study Abroad programs, see Duke Abroad Handbook.

| Student Unique ID ___________________________________________________________ |
| Email: ___________________________________ @ ____________________________ |

Graduation Date (Month/Year): ____________________/__________________________

- ☐ 1st Major __________________
- ☐ 2nd Major _________________
- ☐ Minor _________________

Type of Study Course:
- ☐ Independent Study
- ☐ Research Independent Study

Term / Year:
- ☐ Fall
- ☐ Spring
- ☐ Summer

Year __________________________

Title of Independent Study: ___________________________________________________

Short Title: 

| ______ | ______ | ______ | ______ | ______ |

(to be listed on transcript; limit 30 characters, including spaces)

Supervising Faculty Member ________________________________________________

Supervising Faculty Member Email Address: __________________________________

Academic Title: ____________________________________________________________

Affiliation (CS, ECE, etc.) __________________________________________________

- ☐ Instructor (if different from Supervising Faculty Member) ____________________

Instructor Title and affiliation: ________________________________________________

Instructor Email Address: ____________________________________________________

On the following page (or attached sheet), please provide the following information:

1. **Title and Description of Proposed Study:** Provide a one to two paragraph description of the proposed study, including topic, course goals, research / readings to be conducted. (The instructor and/or department or program may require a more detailed proposal, including a list of sources and bibliography, a rationale for independent study as opposed to regular course work, etc.)

2. **Nature of the Final Product:** Describe the nature and length of the final product (e.g. academic paper, artistic product, research report, etc.)

3. **Scheduled Meetings and Work Expectations:** Provide information on length of the WEEKLY meetings with instructor, and expected work commitments and/or timetables.

4. **Grading:** Provide information on how your work in the course is to be evaluated.
